

STOKE GOLDING CONSERVATION AREA

PUBLIC EXHIBITION

The purpose of this exhibition is to draw your attention to a review of the Stoke Golding Conservation Area which the Borough Council is empowered to carry out from time to time. This review takes the form of a comprehensive appraisal which assesses the significance of the designated area and analyses how that significance is vulnerable to change.

A Conservation Area Appraisal and Management Plan has been prepared for the area. This provides a description of the historical development of the settlement and sets out the important features of the area that should be protected.

The benefits of the review are that it will provide a sound basis for decisions on future development proposals, help to develop initiatives to improve the area and provide an educational and informative document for the local community.

The Council is now seeking your views. Any comments you may wish to make on the proposals put forward should be noted on the comment sheet provided and placed in the box. Alternatively, you can email your comments to barry.whirrity@hinckley-bosworth.gov.uk
