Dear Sir / Madam

**Sheepy Neighbourhood Plan Consultation  
SUBMISSION ON BEHALF OF NATIONAL GRID**

National Grid has appointed Wood to review and respond to development plan consultations on its behalf. We are instructed by our client to submit the following representation with regards to the above Neighbourhood Plan consultation.

**About National Grid**

National Grid owns and operates the high voltage electricity transmission system in England and Wales and operate the Scottish high voltage transmission system. National Grid also owns and operates the gas transmission system. In the UK, gas leaves the transmission system and enters the distribution networks at high pressure. It is then transported through a number of reducing pressure tiers until it is finally delivered to our customer. National Grid own four of the UK's gas distribution networks and transport gas to 11 million homes, schools and businesses through 81,000 miles of gas pipelines within North West, East of England, West Midlands and North London.

To help ensure the continued safe operation of existing sites and equipment and to facilitate future infrastructure investment, National Grid wishes to be involved in the preparation, alteration and review of plans and strategies which may affect our assets.

**Assets in your area**

National Grid has identified the following high-pressure gas transmission pipeline as falling within the Neighbourhood area boundary:

- FM04 - Blaby to Alrewas
- FM14 - Alrewas to Churchover

From the consultation information provided, the above gas transmission pipeline does not interact with any of the proposed development sites.

**Gas Distribution – Low / Medium Pressure**

Whilst there is no implications for National Grid Gas Distribution's Intermediate / High Pressure apparatus, there may however be Low Pressure (LP) / Medium Pressure (MP) Gas Distribution pipes present within

proposed development sites. If further information is required in relation to the Gas Distribution network please contact [plantprotection@cadentgas.com](mailto:plantprotection@cadentgas.com)

### **Electricity distribution**

Information regarding the distribution network can be found at: [www.energynetworks.org.uk](http://www.energynetworks.org.uk)

### **Key resources / contacts**

National Grid has provided information in relation to electricity and transmission assets via the following internet link:

<http://www2.nationalgrid.com/uk/services/land-and-development/planning-authority/shape-files/>

Please remember to consult National Grid on any Neighbourhood Plan Documents or site-specific proposals that could affect our infrastructure. We would be grateful if you could add our details shown below to your consultation database:
