Dear Mrs Bassett

Neighbourhood Plan for Sheepy

Thank you for consulting Historic England about your Neighbourhood Plan.

Your Neighbourhood Plan falls within the boundary of the Sibson Conservation Area and includes a number of designated heritage assets including 3 Grade II* and 22 Grade II Listed Buildings; 2 Scheduled Monuments, and 1 Registered Battlefield. It will be important that the strategy you put together for this area safeguards those elements which contribute to the importance of those historic assets. This will assist in ensuring they can be enjoyed by future generations of the area and make sure it is in line with national planning policy.

The conservation officer at Hinckley and Bosworth is the best placed person to assist you in the development of your Neighbourhood Plan. They can help you to consider how the strategy might address the area's heritage assets. At this point we don't consider there is a need for Historic England to be involved in the development of the strategy for your area.

If you have not already done so, we would recommend that you speak to the staff at Leicestershire County Council archaeological advisory service, who look after the Historic Environment Record and give advice on archaeological matters. They should be able to provide details of not only any designated heritage assets but also locally-important buildings, archaeological remains and landscapes. Some Historic Environment Records may also be available on-line via the Heritage Gateway (www.heritagegateway.org.uk <<http://www.heritagegateway.org.uk>>). It may also be useful to involve local voluntary groups such as the local Civic Society, local history groups, building preservation trusts, etc. in the production of your Neighbourhood Plan.

Your local authority might also be able to provide you with general support in the production of your Neighbourhood Plan. National Planning Practice Guidance is clear that where it is relevant, Neighbourhood Plans need to include enough information

about local heritage to guide planning decisions and to put broader strategic heritage policies from the local authority's local plan into action at a neighbourhood scale. If appropriate this should include enough information about local non-designated heritage assets including sites of archaeological interest to guide decisions.

Further information and guidance on how heritage can best be incorporated into Neighbourhood Plans has been produced by Historic England. This signposts a number of other documents which your community might find useful in helping to identify what it is about your area which makes it distinctive and how you might go about ensuring that the character of the area is retained.
