1. BACKGROUND

- 1.1 The Authority Monitoring Report (AMR) forms part of the Local Plan (2006-2026). The requirement for a local authority to produce an Authority Monitoring Report is set out in [Section 113 of the Localism Act 2011](#). The Act requires every authority to produce a report or series of reports containing information on the implementation of the [Local Development Scheme](#) (LDS), the progress and effectiveness of the Local Plan and the extent to which the planning policies set out in local development documents are being achieved.
- 1.2 Section 113 of the Localism Act 2011 requires local planning authorities to publish an AMR at least yearly in the interests of transparency. **This AMR covers the period 1 April 2018 to 31 March 2019.**
- 1.3 Section 34 of the [Town and Country Planning \(Local Planning\) \(England\) Regulations 2012](#) states what the Council's AMR should include. The key elements reported in this AMR are the implementation of the Local Development Scheme (LDS) and the progress and effectiveness of Local Plan policies. In addition this AMR will give an update on the status of Neighbourhood Development Plans (NDPs), how the local planning authority is co-operating with relevant authorities prescribed under [Section 33A of the Act](#) and the demand for self-build and custom housebuilding within the borough.

2. APPROACH TO MONITORING

- 2.1 The aim of the AMR is to identify whether policies and objectives set out in Local Plan documents have been achieved and whether targets and milestones outlined in the Local Development Scheme have been met. Specifically the Council will assess:
- Whether it is meeting, or is on target to meet, the milestones set out in the Local Development Scheme and, if not, the reasons why;
 - Whether Local Plan policies are being implemented or need to be reviewed;
 - What action needs to be taken if policies are not being implemented or require to be reviewed;
 - The status of Neighbourhood Development Plans within the Borough;
 - An update on the ongoing co-operation between the Council and relevant bodies under the Duty to Cooperate; and
 - The level of demand for self-build and custom housebuilding, using a range of headline outputs from the self-build and custom housebuilding register.

Monitoring Local Development Scheme (LDS) Implementation

- 2.2 As required by Regulation 34 of the Town and County Planning (Local Planning) (England) Regulations 2012, the AMR must contain information on what stage documents contained within the LDS have reached in their preparation, and if the document is behind the timetable the reasons for this.
- 2.3 For this AMR period, plan progress is monitored using the key milestones and targets set out in the LDS. In December 2018 an updated LDS was adopted. This is discussed further in the LDS implementation section of this report.

Monitoring Local Planning Policies

- 2.4 Policies from the adopted Core Strategy Development Plan Document (DPD), Site Allocations and Development Management Policies DPD, Hinckley Town Centre Area Action Plan DPD, and Earl Shilton and Barwell Area Action Plan DPD - in total amounting to the Local Plan 2006-2026 - have been monitored to identify which policies have been used most frequently as part of the Development Management decision making process. Those policies that have not been implemented are also monitored, with a statement of the reasons why and the steps to be taken to secure that the policy is implemented where applicable. The results of this analysis are presented in Appendix 1.
- 2.5 We are currently working on a new Local Plan which will set out land allocations and planning policies for the period 2016 to 2036. As at March 2019, the Borough Council had undertaken two consultations on the Local Plan Review, the Scope, issues and options consultation (Jan 2018 - Feb 2018) and the New directions for growth consultation (Jan 2019 – March 2019). Section 4 outlines the Local Development Scheme and targets as at March 2019. The most up-to-date Local Development Scheme (LDS) can be found on the Borough Council's website here: https://www.hinckley-bosworth.gov.uk/info/856/local_development_framework/832/local_development_scheme_lds

More detail can be found on the Borough Council's website here: https://www.hinckley-bosworth.gov.uk/info/1004/planning_policy/1315/local_plan_review

Policy Performance & Effects

- 2.6 To ensure that policies and proposals are delivering their intended aims and that the effects of their implementation meet with sustainable development objectives, relevant targets and indicators need to be devised. By monitoring these indicators, an assessment can be made as to whether the policies are achieving their objectives, and if not, whether they need to be reviewed or amended.
- 2.7 The output indicators for the Core Strategy, Site Allocations and Development Management Policies document, Hinckley Town Centre Area Action Plan and the Earl Shilton and Barwell Area Action Plan will be used to assess the performance of the relevant policies. The Site Allocations and Development Management Policies document provides the Monitoring Framework against which to test its policy performance and effects as well as that of the Core Strategy. Each of the AAPs includes bespoke monitoring frameworks which are used.
- 2.8 The assessment of policy implementation, performance and effects in Section 8 is carried out in relation to the Core Strategy DPD (2009), Site Allocations and Development Management Policies document (2016), the Hinckley Town Centre Area Action Plan DPD (2011), the Earl Shilton and Barwell Area Action Plan DPD (2014) as at 31 March 2019.
- 2.9 Neighbourhood Development Plans once 'made' become part of the Development Plan, and sit alongside the Local Plan prepared by the Local Authority. Most do not have monitoring frameworks against which its policy performance and effects can be tested. However, the policies of any made Neighbourhood plans will be monitored and reported in Appendix 1 as at 31 March 2019.

4. LOCAL DEVELOPMENT SCHEME IMPLEMENTATION

- 4.1 This section will examine the Council's progress in terms of Local Plan (2006-2026) document production against the targets and milestones set out in the Local Development Scheme (LDS) 2016-2021, adopted December 2018.
- 4.2 The progress of the Local Plan against the LDS during the 2018/19 monitoring year is detailed in Table 2 below. This shows whether the document has met the LDS milestone or is on course to meet the milestone (green), whether any slippage has occurred or is likely to occur (yellow) or if a milestone has been missed (red).

Explanation of progress against the Local Development Scheme

Public Consultation on a draft plan has been delayed due to factors that could not be envisaged at the time of writing the original LDS (December 2018). These factors include:

- The revision of the NPPF in February 2019 requiring further evidence gathering for the Local Plan;
- The uncertainties around the Local Housing Need Standard Methodology and the population projections to be used;
- Uncertainties on Leicester City's unmet need and how that is to be addressed across the county; and
- A change in political administration.

The Council will be looking to update the LDS in the 2020 to reflect this.

5. HOUSING SUPPLY – 1 APRIL 2018 – 31 MARCH 2019

- 5.1. The National Planning Policy Framework (NPPF) (February 2019) requires local planning authorities to significantly boost the supply of housing. Paragraphs 59 and 60 state that;

“To support the Government’s objective of significantly boosting the supply of homes, it is important that a sufficient amount and variety of land can come forward where it is needed, that the needs of groups with specific housing requirements are addressed and that land with permission is developed without unnecessary delay.

To determine the minimum number of homes needed, strategic policies should be informed by a local needs assessment, conducted using the standard method in national planning guidance – unless exceptional circumstances justify an alternative approach which also reflects current and future demographic trends and market signals.”

- 5.2. Paragraph 73 of the NPPF also states:

Local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old¹⁷. The supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:

- a) 5% to ensure choice and competition in the market for land; or*
- b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan¹⁸, to account for any fluctuations in the market during that year; or*
- c) 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply¹⁹.*

¹⁷Unless these strategic policies have been reviewed and found not to require updating. Where local housing need is used as the basis for assessing whether a five year supply of specific deliverable sites exists, it should be calculated using the standard method set out in national planning guidance.

¹⁸ For the purposes of paragraphs 73b and 74 a plan adopted between 1 May and 31 October will be considered ‘recently adopted’ until 31 October of the following year; and a plan adopted between 1 November and 30 April will be considered recently adopted until 31 October in the same year.

¹⁹ From November 2018, this will be measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement.

- 5.3. As the Council's Core Strategy was the strategic policy document which set the Borough's housing requirement and was adopted in 2009, it is considered that the policies specific to housing are more than five years old and therefore Hinckley and Bosworth Borough Council will be using the local housing need based on the standard method.
- 5.4. The way in which the Borough's local housing need has been calculated is detailed in the Residential Land Availability Monitoring Statement 1 April 2018-31 March 2019, which is available on our website. The Council's Local Housing need as of 1st April 2019 is **457 dwellings per annum**.
- 5.5. As mentioned in footnote 39 that accompanies paragraph 73 c) of the NPPF, the appropriate buffer to be included in HBBC's five year housing land supply is dependant on its Housing Delivery Test (HDT) results which will be published in November by Government each year with the first results being published March 2019.
- 5.6. Hinckley and Bosworth Borough Council's delivery between 1 April 2015 and 31 March 2018 was 1,585 dwellings against the 1,122 dwelling requirement. Therefore the Council passed the HDT with 141% and a 5% buffer is appropriate for the five year housing supply as of 1st April 2019.
- 5.7. The Council as of 1 April 2019 for the period 1 April 2018 to 31 March 2019 had 464 dwelling completions across the borough. Additionally the Council, as of 1 April 2019 has **4.15 years** of housing land supply. This is explained further in Tables 3 and 4.
- 5.8. Advice on the provision of affordable housing in the borough is included in the Core Strategy and the Affordable Housing Supplementary Planning Document (SPD). Under this advice, Policy 15 of the Core Strategy seeks the provision of 20% affordable housing on all sites with 15 or more dwellings or sites of 0.5 hectares or more in urban areas (Hinckley, Burbage, Barwell and Earl Shilton) and the Barwell and Earl Shilton Sustainable Urban Extensions, and the provision of 40% affordable housing on all sites of 4 or more dwellings or sites of 0.13 hectares or more in rural areas. The tenure split will be 75% social rented and 25% intermediate housing. These figures may be negotiated on a site by site basis taking into account identified local need, existing provision, characteristics of the site and viability.
- 5.9. National Planning Policy Framework, updated in February 2019, has superseded guidance relating to the rural housing targets in Core Strategy policy 15. Paragraph 63 of the NPPF states that affordable housing should only be sought on major developments, except in designated rural areas where a lower threshold may be applied.
- 5.10. Over the last monitoring year (2018/19) 99 affordable dwellings were built of varied tenures. Since the start of the plan period (2006) there have been 1,155 affordable dwelling completions.
- 5.11. More detailed information on the Council's housing supply is contained within the latest Residential Land Availability monitoring statement which is available on the Council's website at https://www.hinckley-bosworth.gov.uk/info/856/local_development_framework/395/monitoring/2

6. DEMAND FOR SELF-BUILD AND CUSTOM HOUSEBUILDING WITHIN THE

- 6.1 The [Self-build and Custom Housebuilding Act 2015](#) (as amended by the Housing and Planning Act 2016) provides the legal basis and definition for self-build and custom housebuilding. Section 1 of the Act sets out that responsibility for keeping a self-build and custom housebuilding register of individuals or associations of individuals with an interest in building or completing self-build or custom houses falls with the relevant authority, in this case Hinckley and Bosworth Borough Council. The Borough Council has maintained a register in line with the requirements set out in the Act since April 2016. The Self-Build and Custom Housebuilding Regulations 2016 came into force 31 October 2016. As a result, the period for monitoring self-build and custom housebuilding interest falls between 31 October and 30 October the following year, save the first year which commenced at the point at which the Borough Council began the register (April 2016).
- 6.2 [National Planning Practice Guidance](#) encourages relevant authorities to publish, in their Authority Monitoring Report, headline data on the demand for self-build and custom housebuilding revealed by their register and, where relevant, other sources. It stipulates that such information can include, but is not limited to:
- The number of individuals and associations on the register;
 - The number of serviced plots of land sought; and
 - The preferences that people on the register have indicated, such as general location, plot sizes and types of housing intended to be built, where this information has been requested by the Borough Council and provided by an applicant.
- 6.3 The table below contains relevant information which can be used to quantify the level of demand for self-build and custom housebuilding within the borough. Given that this is the first time this information has been monitored, it provides the total situation up to 31 March 2019. This will become the baseline against which future AMRs will be able to compare. The Self-Build Register is monitored in base periods 1st November to 31st October, however for this AMR it is monitored up to 31 March 2019.

Table 5. Self-Build and Custom Housebuilding Register - Headline outputs to 31 March 2019

Information	Output (as at 31 March 2019)	
Number of individuals or associations on the register	49	
Number of plots of land sought	49	
Number of plots not yet identified (where applicants indicate they do not yet have a plot)	43	
Number of preferences for rural location (where a clear preference is made for this within the application)	13	
Number of preferences for urban location (where a clear preference is made for this within the application)	7	
Number of individuals or associations potentially interested in building in a group	6	
House type preferences	Detached	49

	Semi-detached	0
	Terraced	0
	Other	0

- 6.4 Currently there are 3 individuals or associations who have registered interest in 3 un-serviced plots, but are exempt from the register. They are exempt because they have specifically requested un-serviced plots.
- 6.5 Future AMRs will continue to record this data at these intervals in order to help measure demand.
- 6.6 Currently the number of permissions granted as Self-build or custom build dwellings has not been monitored. This is currently being reviewed through the Councils Local Plan Review and this data will be provided in future AMRs.

7. THE BOROUGH COUNCIL'S DUTY TO COOPERATE

- 7.1 The Localism Act 2011 requires Local Planning Authorities (LPAs) to cooperate with each other and with other public bodies to address those planning issues that are strategic in their area.
- 7.2 The Localism Act also requires LPAs to “*engage constructively, actively and on an on-going basis*” to develop strategic policies and consider joint approaches to plan making where appropriate. The Duty to Co-operate came into effect on 15th November 2011.
- 7.3 The NPPF paragraph 20 provides details regarding the expectations of strategic policies and what they should provide. The LPA has a duty to co-operate on strategic issues and these policies should be considered as strategic priorities.
- 7.4 The Town and Country Planning (Local Planning) (England) Regulations 2012 require that the LPA's Authority Monitoring Report must give details of what action has been taken during the monitoring period to satisfy the Duty to Co-operate.
- 7.5 Hinckley and Bosworth Borough Council has undertaken a considerable amount of engagement activity and discourse with neighbouring local authorities within this period, both individually and as part of planning groups and forums on a sub-regional basis. A large number of public and private bodies and the local residential and business communities have also been regularly engaged and consulted throughout the plan-making process. The key cross boundary work streams are set out in table 6 below, whilst table 7 sets out the regular duty to cooperate meetings that Hinckley and Bosworth Borough Council are involved in.

8. POLICY PERFORMANCE AND EFFECTS

- 8.1 A key requirement of the Authority Monitoring Report (AMR) is to assess whether the policies set out in Local Plan documents are achieving their objectives.
- 8.2 To ensure that policies are delivering their intended aims and that the effects of their implementation meet with sustainable development objectives, relevant targets and indicators need to be devised. By monitoring these indicators, an assessment can be made as to whether the policies are achieving their objectives, and if not, whether they need to be reviewed or amended.
- 8.3 The output indicators reported in this AMR will be for the Core Strategy, Site Allocations and Development Management Document, Hinckley Town Centre Area Action Plan, Earl Shilton and Barwell Area Action Plan, Market Bosworth Neighbourhood Plan and Sheepy Neighbourhood Plan. An assessment of the performance of the framework of indicators has been completed, with the results outlined in the following section.

Output Indicators

- 8.4 As outlined in Section 2, policy performance and effects are monitored using a framework of indicators. The monitoring framework was established as part of the Core Strategy 2009. This document was then reinforced by the Site Allocations and Development Management Policies DPD 2016. The Site Allocations and Development Management Policies DPD does not have its own set of strategic objectives because its purpose is to deliver those of the Core Strategy, therefore much of the framework as set out originally within the Core Strategy 2009 remains unchanged. The two documents are monitored alongside one another.
- 8.5 The only two adopted neighbourhood plans in Hinckley and Bosworth are Market Bosworth Neighbourhood Plan and Sheepy Neighbourhood Plan. These documents do not have their own set of strategic objectives or monitoring framework as its purpose is to build upon the core documents of the Local Plan.

HINCKLEY TOWN CENTRE AREA ACTION PLAN

8.5 The adopted Hinckley Town Centre Area Action Plan DPD contains a monitoring framework of indicators designed to assess the extent to which policies contained within the document are being achieved and if targets are being met. The 2018/19 returns for the indicators contained within the Hinckley Town Centre Area Action Plan Monitoring Framework are provided within Tables 21 to 28. Some of the indicators contained within the Area Action Plan are also returned in the Site Allocations and Development Management Policies DPD Monitoring Framework, and where this is the case it is stated in the relevant table.

8.6 The Hinckley Town Centre Area Action Plan provides the direction required to meet the targets of Spatial Objective 2 – increasing and improving the accessibility of the town centre.

8.7 In 2017 a brand new monitoring system was introduced for footfall count in the Town Centre. The new system, 'Geo-Sense', picks up a signal from mobile phones so is significantly more accurate and it now records data at various locations including The Crescent – it is also able to identify unique visitors from returning ones. This AMR will provide a return that will form the baseline for comparison going forward.

8.8 The Area Action Plan guides development into strategic development areas which will significantly improve the retail provision in the town centre in line with Spatial Objective 3. The Area Action Plan has also facilitated the delivery of a cinema and other leisure uses at the Bus Station and The Crescent.

8.9 A list of bus services is contained within Appendix 2.

EARL SHILTON AND BARWELL AREA ACTION PLAN

- 8.10 The adopted Earl Shilton and Barwell Area Action Plan DPD contains a monitoring framework of indicators designed to assess the extent to which policies contained within the document are being achieved and if targets are being met. Only those indicators for Spatial Objective 5 have been reported (Table 29) as the remainder deal specifically with the development of the Sustainable Urban Extensions (SUEs), which have not yet been granted planning permission. When these applications have been approved, they will be reported in the relevant monitoring year.
- 8.11 The Earl Shilton and Barwell Area Action Plan was adopted September 2014 and was created to help guide the Council, developer and others investing in the future of Earl Shilton and Barwell in the period to 2026 in providing a development framework for two sustainable urban extensions.
- 8.12 The latest position in relation to both SUEs is fully reflected in the Council's housing trajectory (Table 4).

Table 29. Spatial Objective 5 – To increase and improve the range of retail in Earl Shilton and Barwell and ensure that the centres are capable of accommodating an increased number of visitors from the growing population. The centres will continue to support the role of Hinckley as the sub regional centre (Policies 2, 6, 9, 12, 15, 19 & 26)

9. NEIGHBOURHOOD DEVELOPMENT PLANS

- 9.1 Section 34 of the Town and Country Planning (Local Planning) (England) Regulation 2012 states that where a local planning authority have made a neighbourhood development plan, the local planning authority's monitoring report must contain details of these documents.
- 9.2 Table 30 outlines the Council's current position in respect of all active Neighbourhood Development Plans within the Borough when the position is known. Whilst the Borough Council remains responsible for its statutory undertakings in relation to the development of Neighbourhood Development Plans and provides guidance and advice to groups as required and appropriate, a service level agreement was confirmed and commenced in June 2017 between the Borough Council and Rural Communities Council (RCC) who now play a supporting role in facilitating the Neighbourhood Development Plan process on behalf of the Borough Council. As a result, the update in table 30 is significantly informed by the regular updates provided to us by RCC.
- 9.3 Service-level agreement's (SLA) have recently been introduced and sent to the majority of the groups for completion in March 2019. Future AMR's will update on specific date of signing for SLA's.

Witherley	March 2017	Development stage	Preparing policies and evidence gathering. Preparing the document for Pre-Submission later in the year.

Up to date information on all of our Neighbourhood Plan's can be found on the [council's website](#).

- 9.4 The two made plans in the above table are Sheepy and Market Bosworth. Sheepy Neighbourhood Plan was adopted on 19 March 2019 and therefore none of the policies were used in the determination of any application in the 2018/19 monitoring year. The use of these policies will be reported in future AMRs as the Market Bosworth Policies have been.
- 9.5 The Market Bosworth Neighbourhood Plan Policies than have been used/not used are reported in Appendix 1.

Policy 16 – Cycle Routes	To improve the attractiveness of cycling to and within Hinckley town centre by implementing cycle route signage through developer contributions where necessary	There have been no applications determined within the Hinckley Town Centre boundary that improved the cycle routes.

EARL SHILTON AND BARWELL AREA ACTION PLAN POLICIES USED DURING 2018/19:

Most of the policies have not yet been used as they are very much aimed towards the SUEs, which have not yet been granted planning consent. However there are policies which are not specific to the SUEs but development within Barwell and Earl Shilton as a whole. Some of these have been used, and where they have not, a brief explanation of their lack of use is contained in the 'policies not used' table.

Policy	Objective	Times used in 2018/19
Policy 2 – Provision of Community Facilities	To ensure contributions towards the enhancement and provision of community facilities within the equivalent settlements.	1
Policy 19 – Regeneration of the District Centres	To enable the regeneration of the District Centres of Earl Shilton and Barwell.	This policy is not exclusive to the development of the SUEs. The policy has been used twice in this monitoring year.
