Dear Kirstie

Re: Proposed Updates to Sheepy Neighbourhood Plan

We are writing in response to the Proposed Updates to Sheepy Neighbourhood Plan.

The LLR Clinical Commissioning Groups (CCGs) are supportive of the vision set out in your neighbourhood plan. Many of the themes identified in the plan will impact upon the wider determinants of health and as a result population health outcomes. We would therefore welcome working together to maximise the opportunity for health and wellbeing within the vision outlined.

In particular we would welcome:

- Actions to support the development of community identity; maximising opportunities for residents to come together to create community cohesion and support each other.
- Sufficient green space and local recreational facilities that enable residents to access physical activity with ease.
- That new developments are designed in such a way to enhance physical and mental health and wellbeing.
- Designs that support the reduction in carbon emissions, as this has a direct impact on some resident's health

As well as the above generic comments it is important to note that any increase in the number of new residents in any area will have a direct impact upon local NHS services whether that is primary, hospital or community care.

Thank you for the opportunity to comment on your review and I look forward to working together to make the most of the opportunity and mitigate any impacts from increases in population upon local NHS services.

Yours sincerely
