Organisation (if applicable)::

We would like to know whether, overall, you support the proposed changes to the plan, support them with modifications, or oppose them:: Support the plan with modifications

Please select the changes to policy areas you would like to comment on::S1: Countryside, Appendix 7: Local wildlife sites

Do you support or oppose policy S1: countryside?:Support with modifications

Please provide your reason for this view::Please refer to uploaded supporting information

Do you support or oppose appendix 7: Local wildlife sites?:Support with modifications

Please provide your reason for this view::I would like SPC to consider linking with Witherley Parish Council to ascertain if there are similar species present in Manor Farm Meadows, LWS, southern border of Parish and LCC LWS Phase 1 Habitat Survey 11275 neutral grassland, along with surveying the fields/land in between the two sites. All fields border the River Tweed and cover a considerable area.

If these fields do have a similar level of biodiversity could these sites/fields be joined and recognised as one larger LWS spanning the Parishes? This may need to be a Community Action within SPC NDP and both Parishes would need to work with LCC Ecologist.

Would you like to provide any other comments on the plan?:Yes

For each comment, please provide the paragraph number(s), or other reference, from the

plan which your comments relate to, whether you support or oppose the theme and provide your reason for this view:: Ecology and Biodiversity

Upload any supporting information: (Attach up to three documents):Reg 19-comments on blue corridor-River Sence.docx
